

# McKay Métis Energy

SERVICES

McKay Métis Group and SITE Energy are excited to announce the renewal of their long-standing partnership through McKay Métis Energy Services.

As an unstoppable social enterprise aimed at increasing the quality of life for their community, McKay Métis Group takes pride in its carefully curated partnerships, and is particularly proud of its partnership with SITE Energy.

SITE Energy is an integrated services contractor known for their work in remote access solutions, civil construction, fabrication, and environmental services across Western Canada. The business relationship between SITE Energy and McKay Métis Group is one of longest in the group's portfolio and demonstrates the added value that McKay Métis Group brings to its business relationships.

The renewal of this partnership creates a remarkable opportunity that provides sustainable economic developments to the Fort McKay Métis Nation. It is precisely this kind of partnership which demonstrates the transformational change that takes place when business and Indigenous communities come together.
